

PROGRAM DESCRIPTION

The Associate in Applied Science eighteen-month Nursing degree program allows students to enjoy small class sizes, supportive faculty, transferable courses and leadership/engagement opportunities all at a very low cost. Courses are offered on the WCCC Campus in Calais, as well as clinical rotations located throughout the State of Maine. Students who successfully graduate from the program become eligible to apply to take the NCLEX-RN licensing exam; successful completion enables the graduate to seek licensure as a Registered Nurse (RN).

Enrolling in our Health Occupations Certificate Program will allow you to complete required general education and pre-requisite courses needed to seek admission into the WCCC Nursing program!

PROGRAM OUTCOMES

1. Apply principles of biological, behavioral, and social sciences to assess, plan, and implement safe, evidence-based nursing care across the lifespan.
2. Use clinical reasoning and the nursing process to identify patient needs, solve problems, and evaluate outcomes in diverse healthcare settings.
3. Demonstrate clinical competence and accountability in performing safe, effective nursing interventions that promote optimal patient outcomes.
4. Integrate informatics, technology, and current evidence to support decision-making and improvement to the quality and safety of patient care.
5. Communicate and collaborate effectively with patients, families, and interdisciplinary teams while integrating ethical, legal, and professional responsibility.
