Plumbing Technology

The Plumbing Technology Certificate program prepares students to assemble, maintain and repair plumbing systems in accordance with the Maine State Plumbing Code. Through classroom instruction, students learn design, layout and installation theory. Working in a shop equipped with a complete house layout, students acquire the skills necessary to perform basic plumbing operations. Instruction includes related work in mathematics, communications, soldering, water pumps, and electrical applications. Graduates of this program are eligible to take the State of Maine Journeyman's Plumbing Examination.
