

Students,

Welcome to the Fall 2021 at Washington County Community College! Our campus is moving to offering more live opportunities for teaching and learning this semester. Our faculty and staff are excited to welcome you to campus either in a live classroom environment or via remote learning modalities. We are all here to support your educational journey and look forward to getting to know you better throughout the coming weeks and months.

We are enhancing many of our student services on campus this year to support your success as a college student. We will be launching the Student Advocacy and Resource Center; a newly renovated wing that will be home to our automotive, medical assisting, human services, early childhood education, and science classes; and a newly renovated second floor Teaching and Learning Center of Excellence. We are excited to introduce you to these new spaces on our campus in the coming weeks and look forward to the enhanced learning experience they will provide for our students. We are confident WCCC will offer you the educational opportunities necessary in today's changing work environment to increase your potential and assist you with achieving your career goals.

I recognize and commend you for your steadfast commitment to the pursuit of higher education during these challenging times in which we find ourselves. You can be assured that we are working diligently to provide a learning opportunity that is as safe as possible given the current Delta variant. Provided below is the campus link for more information and protocols regarding COVID-19 mitigation strategies

I look forward to meeting you soon and learning from you about how we can improve our beautiful campus in the year ahead. Please stop by my office in Riverview Hall if you wish to meet in person. I will be out and about during your upcoming orientation and welcome you as a new member of our WCCC Community.

Wishing you all a healthy, safe and productive educational experience in the year ahead!

Sincerely,
